

WORKDAY

Recruiting is Live!

From the desk of Sandra Angeles – Senior Manager, HRIS & Workday HR Solutions Lead

Workday Recruiting is live! Congratulations, and thank you to everyone who contributed to this effort.

Today marks an important day for our associates and managers that hire across our U.S. organization. For the first time, we have a system that can move talent into and across the organization. Almost all of our U.S. associates will now be able to see job opportunities that await them at Sysco. They will also be able to refer new associates to work for Sysco or any of our U.S. companies. Managers will be able to view our talent pool and see those interested in positions. And our HR community will be able to more effectively manage our talent, all in one system.

With the introduction of this new functionality, we have a new opportunity to reinforce the importance of logging in regularly to manage individual and team data. Please remind both associates and managers to explore Workday, complete their profiles and validate their personal and/or team information.
