From the Desks of Bettina Brayshaw – Workday Human Capital Management (HCM) Business Lead and Raj Nagarajan – Director, HR Operations

This email is being sent to Doerle and HFM Associates.

At Sysco, we are always looking for ways to manage our business in more efficient ways. It's part of what we do every day. Whether it is improving products, processes or leveraging technology to deliver to our customers, associates and shareholders in more meaningful ways. Now, we're taking a big step towards managing our entire business in a new way, through the implementation of technology that will touch each and every current and future associate.

Beginning Oct. 29, Sysco is moving to Workday HCM as our system of record for associate data.

Self-Service at Sysco Beginning Oct. 29

An important strategy for Sysco's long-term growth is to put technology into the hands of our managers and associates, allowing us all to more effectively manage the business. With Workday, you will have responsibility for managing your own personal data. Whether you are updating your home address due to a move, or changing where you want your paycheck to be direct deposited, with Workday, you will initiate transactions online.

Examples of associate-owned transactions in Workday beginning Oct. 29:

- Change address, phone number and other personal information
- Elect federal pay withholdings (W-4)
- Designate direct deposit
- Support certain new hire activities such as reviewing company policies

Staying connected with our associates is important to Sysco. It helps us get important information to you. We're excited that Workday gives us new, easier and more ways to stay connected. To get you connected to Workday immediately, beginning Oct. 29, we will host a Workday contest between associates (200 associates will win \$200) and OpCos (eligible to win an OpCo event). Contest details can be found [here](#). More details will be coming your way Oct. 29.
